BASEBALL

Baseball, boxing, tumbling and wrestling were just a few of the sports the boys participated in during their physical education period. The boys were given their choice of these sports and then were given a chance to develop in one of the said sports.

Mr. Spriggs coached the boys in the gymnastic sports. Mr. Grant directed all outside sports which included softball, touchtackle, soccer and the like. All organized team sports were under the direction of Coach Butler. This group of sports was made up of basketball, baseball and football.

One of the foremost activities of this school year was the Victory Corps, instituted by the government to prepare high school students for the service or for war work.

The student council adopted the Victory Corps with the beginning of 1943. One day a week was set aside for marching, and a regular program of war stamp purchases was required. After one month of basic training, members were eligible for the advanced divisions of the Army, Navy, Air, Production, or Community Service.

Insignias were presented to these advanced members in an assembly and they were worn on the left sleeve of the owner's clothing.

The training was under the direction of Mr. Spriggs and Mr. Butler, with the assistance of Clarence Tedrow. To insure additional practice, the boys near the draft age were given command of squads toward the last of the year.

Competition

Grizzlies and Wildcats—these were the names of the football teams which battled for top honors on the gridiron this year. Unable to have competitive sports between schools, due to the curtailment of means of transportation, football was introduced on an intramural basis.

The two teams played every Friday; the Wildcats downing the Grizzlies in every game.

At the close of the season the two teams combined their efforts and played Le Grand, losing the first game and winning the second.

Awards were made on the basis of minutes played in the Intramural games. Sweaters went to Gilbert Sanchez and Francis Manger. Block "M"s went to Daugherty, Wiebold, Becker, Harris, Sanchez, Manger, Wass and Scott.

Teamwork

Our basketball season started soon after our Christmas vacation and was handled in exactly the same way as football.

After about a month of practice a series of Intramural games was started, only to be interrupted after the first two games by the scheduling of two games with Le Grand. The teams were combined in an effort to make one team in each division to oppose Le Grand. Our boys, who have only a dirt court to play on, were easily taken by Le Grand in their gym. In a return game two weeks later our boys showed great improvement.

Awards were made by combining the minutes played against Le Grand and the time played in our Intramural games. Sweaters were awarded to Larry McDonnell and Richard Cocanour. Block "M"s went to "A"s McDonnell, Schottky, Cocanour, Sanchez, Bullis, Brockman and Beatty; and to "B"s Trabucco, Clark, Peck, Holcomb and Dunn.

A Healthy Body, A Healthy Mind

Under the supervision of Miss Wollet, the new gym teacher, the girls have had an active year of work and play. Although the number of girls was decreased this year, they played hard in all the sports. Once a week marching was held, training for the Victory Corps. The usual sports—baseball, basketball, speedball, hockey, archery, and volleyball—were played. This year a new sport was introduced—tumbling—to which all the girls responded with great enthusiasm. Each sport was played for a period of six weeks, after which the winning team of one class played the winning team of the other class. Picked teams were then chosen, consisting of the best players of the class, and once more play-offs were held.

There were no sweaters awarded, however, quite a few of the girls received numerals and letters.
